Fires that happen in the home are a very serious problem today. In America, there are over 100,000 home fires every year and many start in the kitchen. There are a lot of things you can do to protect your house from fire. First of all, you need to follow a few safety rules. You should never leave the kitchen while you are cooking. It's also a bad idea to wear loose clothes when you cook. Always keep the cooking area clean and don't let children come very close to the cooker. It is also important to know what to do if a fire starts. If a pan catches fire, don't throw water on it! Put a blanket over it and turn off the heat. If the fire doesn't go out, call the fire brigade. If a fire starts inside the oven, keep the door shut and turn it off. If you burn yourself, run cold water over the burn. Finally, install a smoke alarm and learn how to use it. Also, know the number of your fire brigade by heart. It's better to be safe than sorry.

Most people today cannot imagine their life without a mobile phone. I believe it is one of the most important innovations ever. Thanks to mobile phones, our lives are much easier today.

First of all, if you have a mobile phone you can make phone calls no matter where you are. For example, you can call a friend to let them know that you lost your way or are going to be late. As a result, you feel safer and less stressed. In addition, we can use mobile phones to send text messages. We can write messages to friends giving them news or sending them birthday wishes. We can even listen to the radio while travelling on a bus or the metro. However, some people would argue that it has a negative effect on our life. If we use mobile phones all the time, it is bad for our health.

In my opinion, mobile phones have more advantages than disadvantages if we use them correctly. Our lives are better with them and they are here to stay.
